Why a Coaching Business.

How to get to where you want to be.

Understand that most people have a cognitive bias.

They see what they want to see.

To be a creator of your life experiences you first must become aware of who you are

Your cognitive bias.

Your belief system.

it's essential to be aware that being a good coach is not the same as being able to start or run a coaching business.

Most coaches who are able to sustain themselves and focus on coaching full-time.

Its time consuming and restrictive.

Only **a coaching business system** (not just coaching) gives you the FREEDOM to coach from anywhere, travel often, live comfortably, touch many lives, and be rewarded and recognized for it.

This distinction is the most important one for you to sustain yourself as a coach and achieve your life goals through coaching.
